Mr. Harold Wieberg

Dear Sir:

Thank you on the Jim Green radio
tells about, but only the last part
of the call.

All of these years a bit of uniform -
ation has stuck in my mind
about the murder of Fred. Kennedy.
At the time there seemed to be

many hints that maybe the
Mafia had a hand in this affair,
perhaps on a contract. No one
knew the Mob was from men
to run their night clubs and
other businesses - and Ruby was
in charge of a night club - and
probably responsible for carry-
ing out the contract. The reason
he had to kill Oswald? Being
so low the party - or not knowing

him that was not answered.
By some sort of government.

At one time Pres. Johnson had
some met back picked up
and the Border Patrol passed
most around because of
information I sent to him.

I am sorry I have not read any of
your books, as I am mainly
interested in contemporary - of-
mology and their connection
with theology. (Very close to
Van Vankers' Wood but I feel
I am closer to the truth than
he is. At least I have so many
possible explanations for many
of the so called mysteries of the
Bible and in theology that I feel
scientists and theologists will
have to prove me wrong. In fact
so much circumstantial evidence
that any person would be convinced
in any kind of court any where in
the world. "Please Open it" ^{Rev. Walter S. Brown, Jr.}
